

## Presseinformation

### **1355 DIAMOND**

Dining table

Design Georg Appeltshauser 1991

A gem from the workshop of the master stonemason. The finish of the table edge is reminiscent of an artfully worked diamond. Classic in shape, the appearance of the table offers the onlooker a pleasing symmetry whose masterly detail fascinates and captivates the eye.

FURTHER INFORMATION: e.g. dimensions and material variants under "technical details"
