1540 TRILOPE

Dining table of natural stone
Design Wolfgang C. R. Mezger 2018

If you are looking for a particularly sculptural, yet compact table, you will be thrilled by the TRILOPE. It radiates calm with its striking presence, but at the same time surprises with a base appearing in movement. The shape of the tabletop may remind some of a plectrum which rock guitarists use to hit the strings hard.

This furniture composition by designer Wolfgang C.R. Mezger is available in versions in which the materials natural stone and wood enter into an exciting dialogue. If you prefer, you may as well choose the TRILOPE entirely in wood, which means with a solid wood top. Whether stone or wood top, in any case, it attracts attention. A strong statement in the room.

The legendary stone park offers 150 different types of natural stone from all over the world. The customer selects his slab and determines the cutout from which a unique DRAENERT piece of furniture is made.
