2057 DEXTER

Chair with leather and/or fabric cover
Design Gino Carollo 2015/ 2018

Following the chair series of the 1950s, the DEXTER now also comes with a frame of wire mesh – at that time revolutionary. A chair that adapts to every table – an infinity of combinations is possible because of the large color choice from our leather- and fabric collections and the various frame coatings.

The DEXTER model has developed into a diverse product family. In addition, there is the possibility to combine seat shell and back in different colors or materials: leather, fabric and leather/ fabric mix.

FURTHER INFORMATION: e.g. dimensions and material variants see "data sheet"
