

# VICTOR

---

Model No. 1470

## DESIGN WOLFGANG C. R. MEZGER

VICTOR - an archaic-looking sculpture of a table, coarse - soft, brute - delicate, demanding and giving... These are no contradictions, but united in a unique table design. The earthy top of solid wood gives the table a rustic and natural appearance. The industrial-design frame in the form of double t-beams is connected with a rectangular base plate. These features provide immediately an impressive statement. The visible, robust screwing in combination with the black steel look of the surfaces of t-beams and ground plate give this model the finishing touch.

	H-beams in X-form black steel	W - L - H approx. in cm
	<b>Base plate</b> black steel	

1470 dining table rectangular	50 x 96	100 x 200 x 74 100 x 220 x 74  100 x 240 x 74 100 x 260 x 74
1470 dining table rectangular	58 x 108	120 x 260 x 74 * 120 x 280 x 74

Note:

\* 280 cm length of the top: please check availability beforehand.

Description:

Black steel is black, scale-covered, crude steel - as used in the construction sector. As the surface is not ground, the beams show the typical signs of wear and tear like scratches, scrapes, dents, stains and signs of corrosion etc.

The construction industry does not handle the steel with much care. When the surface is damaged, the bright steel shows under the black scaled layer. These bright parts remain visible and do not constitute a defect. The surface is treated with rust converter and clear lacquer.

The result is an interesting black-purple play of colors on the metal surface which would not be possible with a black coating.

Please kindly consider these material-related conditions.
