

# LIFT

---

Model No. 1010-IV

## DESIGN DR. PATRIC DRAENERT

The Lift IV is a technically sophisticated redefinition of the classic 1010 table with LIFT function. By turning the table top slightly, the locking will be released and allows a stepless height adjustment of the table top. Different tempered glass variants for the table top are available: clear glass, optiwhite glass back-lacquered and satinated opti-white glass. The center column is available in polished chrome or matt-chrome.
