

LOPE

Model No. 1541

DESIGN WOLFGANG C. R. MEZGER

The form of the TRILOPE table top bases on the „Reuleaux-triangle“ (also known as „spherical triangle “ or „Reuleaux rotor“). The top view was rounded and honed in accordance with the rules of geometric art, so that the smooth appearance of the top invites to linger at the table. The top resembles the one of a round table, but with innovative optics and more presence and sophistication. The base consists of three distinctly profiled legs of solid wood which are connected tangentially. Therefore, they unite a fascinating look with highest stability. The base and the top come together in perfect aesthetic union and, viewed from every angle, have the effect of a laconic and intriguing sculpture.
